LG-HT $520 EA 65 lbs
Seamless One-Piece Lacrosse Net

The NETX1™ lacrosse net is the most robust and long-lasting net money can buy. Its one-piece design eliminates the most common points of failure on traditional lacrosse nets: the diagonal seams, while providing a modern aesthetic that truly sets it apart.

The UV/weather stabilized “double-needle” nylon twine has a true 7mm thickness (measured across the depth and width of the twine) with a minimum breaking strength of 770 lbs. The combination of high strength twine and lack of diagonal seams means it will outlast every other net on the market.

The included “body fit” rope adjusts the net on the goal to maintain an appropriate amount of slack so balls remain inside the goal without bouncing back out.

- Weather-stabilized 7mm x 1½” sq. knotless nylon with breaking strength of 770 lbs.
- One-piece design eliminates diagonal seams (the most common point of failure)

1 Year Limited Warranty

Seven Different Heights and Pole Styles

10' Straight Pole with multi-sport net is ideal for use as a Lacrosse and Field Hockey backstop net. The net is clipped at the top and bottom of each pole.

15', 20', 25', 30', and 40' Straight Pole comes with a hoist system allowing quick and easy lowering/removal of the net after the game, season, or before a big storm. Reinstalling the net is a snap - all from ground level with no need for a ladder.

20' Offset Pole provides 3' of offset which is ideal for use around the perimeter of soccer and baseball/softball fields. It’s also an added measure of safety from ricocheting balls.

Basic Features

- Pulley system to raise/lower net (excludes 10' poles)
- Ground sleeves facilitate installation and allow for system removal as needed
- Covers for ground sleeves are sold separately

* Limited Warranties

Visit JayproSpecs.com to access detailed specification sheets for FieldPro™ Net Systems.
